Delighted, Delight!

General Saw Red

Margaret Mitchell

What's that you said? These gift deep-freezers are putting the chill on official Washington?

The boys here and at Blevins say Barney Smith, new highway commissioner for this district, will go down the line to get the State Highway Commission to add 14 miles to the state highway system — extending No. 29 from Blevins across Little Missouri river to Delight.

For many years elsewhere on this page, the proposal calls for only six miles of actual construction — the portion between Blevins and the river. The Pike county end of the road is already built.

As you read this newspaper, fought to get a road across the Little Missouri bottoms to Delight, only 30 miles from Hope. The first attempt was to purchase with Hempstead county funds the old iron bridge over the old Marfreesboro which the state highway department replaced. The old bridge had reverted to Pike county — but Pike finally sold the bridge to Nevada county folks, and they moved it on Little Missouri river farther east, to serve highway No. 19.

Later, Hempstead county built a bridge north of Blevins; but never had funds for an adequate highway from Blevins to the bridge.

Once this link is filled in Hope will have access to the rich farmlands of eastern Pike county and Delight folks will have a new market place here.

If Hope folks don't beat the drums for this project we might as well call the undertaker.

The Korean Communists and an American general have the same boat — but they aren't in it. That is, it was the general's boat, the Associated Press reports, until yesterday — yesterday it disappeared, and pretty soon the North Korea (Red) radio blared out, "General Lee was killed."

But the dispatch from Seoul says it wasn't exactly a triumph of war. The treacherous Korean crew simply deserted and took the boat with them.

The boat was a 35-foot cabin cruiser. After an important naval action, after all — and, by the way, what business does a general have fooling around with the Navy?

As I write this, Margaret Mitchell lies at death's door in an Atlanta hospital, the victim of a drunken cab-driver who ran her down while she and her husband were crossing Peachtree street — which she made world famous in "Gone With the Wind."

Miss Mitchell wrote, I believe, only one book — but it will live longer than whole libraries of other authors. For she told the story of the South and the war.

The South and the world feel for her in this tragic moment, and pray that she will be spared.

Senate Groups Confirm Clark and McGrath

Washington, Aug. 13 — (AP) — The senate judiciary committee today recommended confirmation of Attorney General Tom C. Clark to be an associate justice of the supreme court. The vote was 9 to 2. The committee also recommended 93 to 0 — the confirmation of Senator J. Howard McGrath (D-R) to be attorney general succeeding Clark.

Chairman McCarran (D-Nev) at first declined to say who voted against Clark. Later he told reporters that Senators Donnell (R-Mo) and Ferguson (R-Mich) opposed confirmation.

McGrath would report the committee action to the senate at once but would not ask unanimous consent required to act upon the high court appointment today. Unless some other senator does, it is accepted, there will be no senate action on the matter until Monday.

In addition to McCarran, other senators voting for Clark included: Kilgore (D-W. Va.), Magnuson (D-Wash.), McGrath, Miller (D-Iowa), O'Connor (D-Md.), Graham (D-N.C.), Wiley (D-Wis.) and Langer (D-Ind.).

Two committee members were not present or recorded: Eastland (D-Miss.) and E. A. Tamm (D-Va.). The vote reporting the Clark nomination favorably to the senate came after Donnell and Ferguson lost an effort to have the attorney general called for questioning at a public hearing.

Ferguson told a reporter that Donnell made a move to reopen the public hearings so Clark could be called.

This move was cut off, Ferguson said, when Senator Langer (D-Ind.) offered a substitute motion at the closed-door session to end the hearings and vote immediately.

Donnell and Ferguson opposed this while the other nine senators present voted yes. An identical vote sent the nomination on to the senate.

The Prescott District of the Bethel A. M. E. church will close its annual convention here Sunday. The Rev. T. O. Crutcher, Arkadelphia, presiding elder, will preach the closing sermon. The public is invited.

Here and There in Arkansas

Little Rock, Aug. 12.—(AP)—Arkansas' polo toll neared the predicted 800 mark today, when state health department reported 592 cases for 1949.

The disease has taken 33 lives in Arkansas this year. Although spread of the disease has slowed down, K. N. Newman, business manager of University hospital in Little Rock said the cases now being received are "more serious" than previous ones.

Newman reported that ten of the hospital's 36 polo patients are in respiratory distress and two other Little Rock hospitals handling polo cases reported their respiratory patients were increasing also.

Marianna Aug. 12.—(AP)—Arkansas' cotton farmers will watch a demonstration cotton irrigation during the annual study day at the University of Arkansas cotton branch experiment station here Aug. 25.

John L. Dameron, assistant director in charge, announced that a special poultry demonstration and an electrical equipment exhibit also will be shown.

Dameron said several thousand farmers from over the state are expected to attend.

Conway, Aug. 12.—(AP)—A coordinated probe into alleged cattle rustling in Faulkner county is being conducted by FBI agents and state police.

Sheriff J. C. Castleberry of Faulkner county said today his office has aided the two groups in their investigation.

A Faulkner county cattleman has claimed that the head of his large herd have been pilfered in the past year. He is Ralph Harrell, Cato, who has offered a \$500 reward for information leading to the discovery of rustlers.

Two men bearing the Harrell brand have been seen in Faulkner county, Castleberry said.

Marion, Aug. 12.—(AP)—Crittenden county's current outbreak of boll weevils is described the worst in 26 years by Assistant County Agent David Chandler.

Chandler said the attack seems to be centered in the south end of the county and along the river as far north as Clarksdale.

Memphis, Aug. 12.—(AP)—The cotton exchange here has received the first bale of the 1949 season.

The able, its tentative grade and staple reported as middling, one and 5-32 inches, was grown by S. E. Scott of West Helena, Ark.

Memphis, Aug. 12.—(AP)—The Memphis district of the U. S. census has taken wraps off its newest piece of flood control equipment on the Mississippi river.

It's a new \$1,400,000 diesel-electric floating revetment plant which is now being used to lay out 8000 feet of articulated concrete mattress on the west bank of the Mississippi river.

The work is part of a project intended to give additional protection to the Arkansas bank of the river near West Memphis.

Great Dance Team in Show Here Sunday

Fred Astaire and Ginger Rogers finally are dancing to the song which they've spent a decade regretting they didn't dance to when the opportunity first was presented.

The song is the unforgettable "They Can't Take That Away From Me," which they introduced in the picture, "Shall We Dance." They only sang the song in that picture, however, and as it became a popular favorite they realized what a beautiful dance background the melody provided. When Miss Rogers joined Astaire in MGM's new technicolor musical, "The Barkleys of Broadway," currently showing at the Saenger Theatre, she suggested they add the song to the film's musical score. As a result, the stars perform one of their nimble-footed routines to it as well as sing its sentimental lyrics.

"The Barkleys of Broadway" is the answer to the thousands of fans who have never stopped writing appeals that Astaire and Miss Rogers be teamed again. It provides them with a gay romantic story filled with laughs. It gives them seven new song hits. The pen of Harry Warren and Ira Gershwin; it presents them together in five varied dance routines, in addition to solo numbers. The musical score is also highlighted by Oscar Levant's rendition of the popular Khachaturian "Sabre Dance" and Tchaikovsky's "B Flat Minor Concerto."

Levants heads the supporting cast in the comedy role of the composer who tries to keep peace between two temperamental Broadway Stars, enacted by Astaire and Miss Rogers. Also featured are Billie Burke, Broadway actress Gale Robbins and Jacques Francois, romantic French actor making his American debut in the role of Astaire's rival.

The picture was directed by Charles Walters and produced by Arthur Freed, with the musical numbers staged and directed by Robert Alton—the same combination which gave the screen the highly successful "Easter Parade."

they don't refer to it as beauty, is that they have to go back every few weeks to drop some more to prevent rebuilding. But when they drop an atom bomb they don't have to return for a long, long time.

And there's the little business of arms. Why, yes, a general tells congress, it's important to equip the French army in case of attack. Of the utmost importance, the general says. And the Russians are probably talking about what an atom bomb could do to Washington, or Paris, and they're probably talking about a picnic like the B-30 that could catch the bomb overseas.

Only a short time ago they let loose a dazzling pack of jet planes over Moscow.

But the sun is shining. Death seems far away. And the men and women, dressed for summer, stroll the streets. Life is like a tiger in their blood. They hope it never is subdued.

Regional Junior Baseball Play Is Underway

Continued From Page One

Little Rock, Aug. 13.—(AP)—Holsum-Fortier High of New Orleans was to tangle with Sunset High of Dallas, Tex., today to start the fight for the sixth regional American Legion junior baseball championship.

The two teams were to meet at 3 p. m.

The first-round pairings pitted Mark, Miss., high against the Arkansas titleholder for the last six years. That game is set for 8 p. m.

Winners of the games will tangle Sunday. Losers will meet in another game the same day. Finals in the double elimination tournament will be reeled off Tuesday night.

Titlist will carry the sixth regional banners into the sectional tournament to be played at Sumpter, S. C., Aug. 22-25.

Vehicle Registration Law May Go in Operation Nov. 1

Continued From Page One

Little Rock, Aug. 1.—(AP)—Arkansas' motor vehicle registration system authorized by the 1949 legislature may be operating by Nov. 1.

Revenue Commission Dean Morley said today a photographic equipment to be used in recording of vehicle ownership is expected to arrive in October.

"We will make every effort to establish ownership other than by the 'pink slip' state license receipts," Morley said. "Methods to be used are original invoices and bills of sale. Where these are not available, we will ask for statements from previous owners or checkers as to previous ownership."

Morley said principal reasons for investigation of the registration system are:

(1) The "pink slips" are not recognized in other states as proof of ownership.

(2) Arkansas is being used, as has been used for years, as a dumping ground for stolen vehicles.

Registration of the state's 359,000 automobiles and 175,000 trucks will be done on the basis of one county at a time, the commissioner explained.

Transfer and Promotion

Bill Dickey of Little Rock last month took over the National Biscuit company district here replacing Albert Fink. He and his family will reside in Hope.

Mr. Fink came to Hope from Memphis in 1939 and has been promoted to special salesman working out of Oklahoma City. Earle Bowling of Hot Springs district and T. R. Miller, Little Rock manager, presented Mr. Fink with a traveling grip. Mr. Fink and his family have moved to Oklahoma City.

A man takes exception to my exhorting the modern youths who offer girls free love unions instead of wedding rings. He says: "Most young men would like to marry. They are hard to get. They are hard to drop out of the set with which you have a long love affair. But they are not so hard to get as you are."

No. They lived plainly. They dressed economically. They worked hard. They indulged themselves in few amusements, yet they were happy. Their marriages were successful.

You may say, and truly, that it isn't easy to do without the things that have become a part of our life. It is hard to walk when you are used to riding. Hard to go shabby when you are used to being well dressed. Hard to eat poor food when your appetite craves luxuries. Dull to sit at home evenings instead of going out to night clubs. Bitter hard to drop out of the set with which you have a long love affair. But they are not so hard to get as you are."

Men are no more willing to make these sacrifices than are women, and when they do it for the sake of love most of them regret it. All of us know dozens of marriages that have gone to pieces just because the young couple could not stand poverty. Their desire for each other was not as great as their desire for ease and pleasure.

In all good truth there are very few young couples who could not marry if they were willing to pay the price of love. But they are not. They want love and marriage, but they want it de luxe, and when they can't have that they experiment with free love for which the woman alone has to settle the bill.

Predicting that steel worker wage increases would swirl throughout the nation's industry, Hancock said such a development could increase total labor costs by \$25,000,000,000.

This would be true, he said, if all workers realized pay boosts equal to those demanded by steelworkers—30 cents an hour.

If the added labor costs, he said, came out of corporate profits, before taxes—"as the union is suggesting that it should completely wipe them out."

"It is hardly necessary for me to spell out what a catastrophe this would create," he added. "In the first place, income tax receipts from this source would be wiped out."

"In the second place, businesses would neither have any money to spend for further capital expansion nor any incentive for spending it, if they had it."

"It is only too obvious that under such circumstances the economy would be plunged promptly into a depression."

On the other hand, the added labor costs were added to prices, and the result would be a post-war inflationary binge, provided high levels of consumption continued.

expensive clothes, nor high-priced shoes. Neither did they have to step out to places of amusement every evening. Nor did they have to buy a new automobile every year. They were content with what they had. They were happy. Their marriages were successful.

No. They lived plainly. They dressed economically. They worked hard. They indulged themselves in few amusements, yet they were happy. Their marriages were successful.

You may say, and truly, that it isn't easy to do without the things that have become a part of our life. It is hard to walk when you are used to riding. Hard to go shabby when you are used to being well dressed. Hard to eat poor food when your appetite craves luxuries. Dull to sit at home evenings instead of going out to night clubs. Bitter hard to drop out of the set with which you have a long love affair. But they are not so hard to get as you are."

Men are no more willing to make these sacrifices than are women, and when they do it for the sake of love most of them regret it. All of us know dozens of marriages that have gone to pieces just because the young couple could not stand poverty. Their desire for each other was not as great as their desire for ease and pleasure.
